

MSJ (The Mycological Society of Japan)/KSM (Korean Society of Mycology) Joint Symposium 2010

Place: Osaka Museum of Natural History

Attendance fee: Free for both days, Party cost: 4,000 yen

Program

September 5 (Sun.)	
13:00-	[Lecture meeting to promote public awareness of biodiversity] (Japanese)
	“Overviews of current progress on fungal diversity in Japan from inventory to ecosystem interactions” by Dr. Yousuke Degawa – Tsukuba University & Dr. Daisuke Sakuma- Osaka Museum of Natural History
14:00	[MSJ/KSM Joint Symposium 2010] (English)
	Opening address by Dr. Susumu Takamatsu (the President of the MSJ), Dr. Hong Gi Kim (the President of the KSM)
14:10	Invited lectures (30 min/ person)
	“Diversity and functioning of microfungi along a climatic gradient” by Dr. Takashi Osono - Center for Ecological Research, Kyoto University
14:40	“The diversity of ectomycorrhizal fungi - Recent approaches and problems -” by Dr. Keisuke Obase - Kangwon National University
15:10	“Introduction of Mushroom Bottle Culture in Korea” by Dr. Tai-Moon Ha -Mushroom Research Institute
15:40	“Preventive Control Effect of Nano-silver (Nanover™) Against Anthracnose Diseases of Pepper” by Drs. Jin Hee Jung, Sang Woo Kim, Kabir Lamsal, Youn Su Lee - Kangwon National University
16:10	Break
16:30	Poster session
18:00	[Symposium party] at “Green Avenue” in the museum

September 6 (Mon.)	
9:30	[MSJ/KSM Joint Symposium 2010] (English)
	Invited lectures (30 min/ person)
9:35	“Origin and diversification of wood-decaying basidiomycetes - Evolutionary history of Dacrymycetes -” by Dr. Takashi Shirouzu - Tottori University
10:05	“Characterization of a mating response MAPKKK gene <i>Cpm3k1</i> and its downstream effectors in <i>Cryphonectria parasitica</i> .” by Dr. Dae-Hyuk Kim - Chonbuk National University
10:35	Break
10:45	Oral presentation (15min/person)
	“Polyphenols decrease in epidermal cells during development of <i>Quercus acutissima</i> - <i>Scleroderma verrucosum</i> ectomycorrhizas” by Drs. NamChul Jung, Yutaka Tamai, KwangIn Oh
11:00	“Re-discovery of Type Specimens of Entomopathogenic fungi by Dr. Yosio Kobayasi and Mr. Shimizu” by Drs. Hiroki Sato, Sayaka Ban, Hayato Masuya, Tsuyoshi Hosoya,
11:15	“In vitro Inhibition Effect of Different Isolates of Antagonistic Bacteria and Its Volatile Metabolites on <i>Botrytis cinerea</i> and <i>Colletotrichum gloeosporioides</i> ” by Drs. Kabir Lamsal, Jin Hee Jung, Sang Woo Kim, Youn Su Lee
11:30	“Role of LAMMER kinase: A fine-tuner for the morphogenetic control?” by Drs. Eun-Hye Kang, Jun-Ho Kuk, Hee-Moon Park,
11:45	Closing address by Dr. Koji Iwase (the Vice-President of the MSJ, Chair of the Organizing Committee)
